# THE Botanist

## Cocktails, Sparklings and Wines

Botany is the study of plant life, the Botanist is the person who indulges this passion. Our bartenders and budding Botanists have taken a long time testing and developing these drinks, they illustrate and highlight the delicate, subtle and sometimes very strong flavours that the best of British herbs are able to give. There are interesting combinations of fresh fruit, purées and fresh citrus juice that we press ourselves and lots more that mother nature has to offer! So go wild, try something new! Who knows, it might just tickle your taste buds. If there is something you'd like that's not on the menu don't be scared to ask us and we will do our best.
