How do you hold

a wine glass?

There is a right and wrong way.
Wine glasses should be held by

the stem,

so that way the hand does not raise
the temperature of the wine.

The stem is there for a reason.

Whiskey starts its life as beer...
....A deliciously true story.

Whiskey is made from 'wort',
which is the 'beer' that gets distilled.

In fact, wort is made out of all the ingredients that you
would find in a glass of chilled beer - water, yeast and malts -
Moreover this process is used to prevent unwanted pests.

Let's go back in time.
The
Ancient Romans
used to drop
a piece of toast
into their wine for good health.

They would put the toast in their fellow drinkers' wines too
and that's where the phrase, "to toast", comes from!
