Brewed by the Locher family at the foot of the Swiss Alps using only the purest water, 1936 Bière has a unique, fresh and ultra clean taste.

The water used to brew 1936 Bière filters through the Swiss Alps, taking up to 25 years to reach the source. This unique water is combined with raw ingredients - Swiss hops and golden barley grown at high altitude on the mountains - to create a beer totally free from artificial preservatives or additives.

This golden lager obtains its refreshing taste from beautiful spring water, Swiss hops & pilsner malt. 1936 Bière is an ultra-clean, crisp, fresh lager with a slight sweetness.

*Enjoy!*

## FROM THE HEAD OF THE HAUS ABOUT OUR UNIQUE RELATIONSHIP WITH THE SKI CLUB OF GREAT BRITAIN

---

The opportunity to link arms with The Ski Club of GB came from a random telephone call, do you know anyone who would like to show our memorabilia?

I of course jumped at the chance, so here we are in The White Haus.

The White Haus combines my passion for pubs and skiing, we've been incredibly lucky to have the support of the ski club of GB – their range of memorabilia gives the pub a unique ambience – transporting drinkers and diners to the slopes without leaving the capital. The ski club are planning to host a whole roster of social activities to ensure The White Haus resonates with their members and all of those with a passion for snow and mountain sports.
