### IMPORTANT STUFF

We want to make eating vegan at Wahaca as easy as possible, so we've collected together all our information here for you. Remember to make sure your waiter knows who on the table is eating vegan, so that if any modifications are required to your dishes they can be sure to let our chefs know and be sure to deliver the right food to you.

### OTHER ALLERGIES

If you are following a vegan diet and have any other allergies or intolerances, please ask to see our full dietary requirements guide which brings all our available information together for you.

### TAKING EXTRA CARE WITH FRIED DISHES

We define dishes suitable for vegetarians as those which do not contain meat as an ingredient and dishes suitable for vegans as those which do not contain meat or animal products as an ingredient. Some dishes - whilst not containing meat or an animal product as an ingredient themselves - have an element that is cooked in our deep-fryers.

Whilst our fryers are cleaned & filled with fresh oil regularly, they may have also been used to cook products containing a non-vegan ingredient during a service. If you are concerned about cross-contamination of this nature, we have marked any dishes containing a deep-fried element with a black dot (●). If the deep-fried element can be removed from the dish on request, it is marked with a blue dot (●).
