

GLUTEN FREE

We've designed this menu to help you choose dishes especially for you & your own relationship with the Big G.

We list everything from the main menu that does not contain gluten. However, the tacos are listed separately on the tills and require a special request when you order. If your allergy is severe, please always order with a member of the team and read the pink box below.

We prepare most dishes from scratch in the kitchen & whilst we make every possible effort to avoid cross-contamination, we would like to advise you that it is not a factory environment and we cannot guarantee with absolute certainty that dishes will not have come into contact with a wheat based product. If you are concerned about the preparation of your food please let a manager know who will notify the kitchen with your requirements and make every effort to go that extra mile.

SEVERE GLUTEN ALLERGIES:

Some dishes, whilst not containing gluten, are cooked in our fryers. Our fryers are cleaned & filled with fresh oil regularly, but they are used to fry gluten products. Therefore, these items are highlighted in pink and should be avoided if this level of cross contamination may affect you or if you suffer with coeliac disease.
