TAKING EXTRA CARE WITH FRIED DISHES

We define dishes suitable for vegetarians as those which do not contain meat as an ingredient and dishes suitable for vegans as those which do not contain meat or animal products as an ingredient. Some dishes - whilst not containing meat or an animal product as an ingredient themselves - have an element that is cooked in our deep-fryers. Our fryers are cleaned and filled with fresh oil regularly, however they may have also been used to cook products containing a non-vegan ingredient during service.

If you are concerned about cross-contamination of this nature, we have marked any dishes containing a deep-fried element with a black dot (●).

If the deep-fried element can be removed from the dish on request, it is marked with a blue dot (●).

Adults need around 2000kcal a day
