--	----------

[o] - Organic

Organic wine is made from grapes grown using organic farming practices and certified as organic by law. Organic wine production focuses on sustainability and environmental stewardship, and avoids the use of synthetic chemicals.

[ve] - Vegan

Vegan wine is made without any animal products or production methods. This includes the use of animal-derived ingredients in the fining process, which clarifies the wine.

Skin Contact

Skin contact wine is white wine that has been fermented with the grape skins on, giving it a deeper color and fuller body than traditional white wine. It's also known as orange wine, amber wine, or skin-fermented white wine.

Pet Nat

Pet-nat is a sparkling wine made using the traditional method of Pétillant Naturel, which is French for "naturally sparkling". It's a natural wine that's made with minimal intervention, and is often cloudy with sediments due to unfiltered bottling.

All wines by the glass are also available
in 175ml & 250ml measures

[o] - Organic

Organic wine is made from grapes grown using organic farming practices and certified as organic by law. Organic wine production focuses on sustainability and environmental stewardship, and avoids the use of synthetic chemicals.

[ve] - Vegan

Vegan wine is made without any animal products or production methods. This includes the use of animal-derived ingredients in the fining process, which clarifies the wine.

Skin Contact

Skin contact wine is white wine that has been fermented with the grape skins on, giving it a deeper color and fuller body than traditional white wine. It's also known as orange wine, amber wine, or skin-fermented white wine.

Pet Nat

Pet-nat is a sparkling wine made using the traditional method of *Pétillant Naturel*, which is French for "naturally sparkling". It's a natural wine that's made with minimal intervention, and is often cloudy with sediments due to unfiltered bottling.

Tannins

Tannins are polyphenols that contribute to a wine's structure, mouthfeel, and aging potential. They are most noticeable in red wines, where they provide a drying, astringent sensation on the palate, similar to the feeling you get from over-steeped black tea.
