HONEST FOOD

All our food is homemade. It's what we pride ourselves on. We don't use preservatives or E numbers and we work with real food that you could find in your kitchen at home.

We make our burgers from scratch in our own butchery using 100% British beef. It's not the easiest way but it means we can serve our burgers pink, so they eat more like a steak.

Our spuds are grown for us locally in West Sussex, before we send them to our prep kitchen and turn them into our Honest chips – always fresh, never frozen.
