

# NĂM SÔNG

COFFEE CO.

## COFFEE *Exclusively* FROM ASIA

Năm Sông's Origin is Asia. The People, the Places, the Experience.

Asian Coffee is also exceptional, however it is extremely under represented on the UK and World Coffee market.

This is what inspired us to set up the Năm Sông Coffee Co. alongside our site in Broomhill. To become a champion for Asian Coffee and Coffee Farmers in the UK and help to share the incredible Origins that the region has to offer.

You can sample some of our incredible Coffees Exclusively from Asia on your visit to us today or you can purchase bags instore or online to enjoy at home.

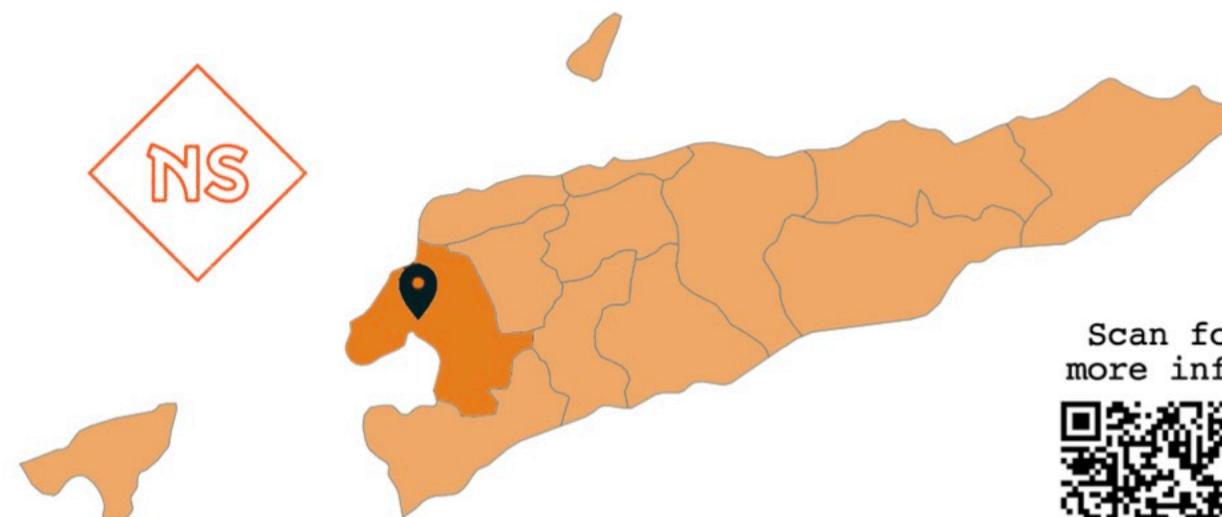

SEEK. SEE. LOVE. DO.

Espresso  
#001

📍 SAMORO, TIMOR LESTE

Scan for more info!

<b>Farm</b>	Samoro Cooperative	<b>Elevation</b>	13500 masl
<b>Variety</b>	Typica (Arabica)	<b>Process</b>	Full Washed
<b>Tasting Notes</b>	Green Apple and Melon		

Timor-Leste is one of the world's youngest nations having gained independence in 2002. It is fast becoming well known on the world speciality market with their high-altitude farms and ideal climate producing unique, high-quality offerings.

We source coffee from the Samoro Cooperative under the guidance of lead farmer Orlando Soares. Lying slightly east of the Cristo Liurai mountain, this community experiences warmer ambient temperatures which in turn results in warmer water during processing. This allows for more concentrated fermentation and produces a coffee featuring slightly bolder flavour notes. You'll see this for yourself in our lovely House Espresso.

Scan for more info!

<b>Farm</b>	Sirinya Farm	<b>Elevation</b>	1450 masl
<b>Process</b>	Anaerobic Natural	<b>Variety</b>	Catimor
<b>Tasting Notes</b>	Tropical Fruits, Lemon Iced Tea		

In recent times specialty coffee in Thailand has seen rapid growth and gained international acclaim, shifting from a focus on mass production to high-quality Arabica beans.

Sirinya Coffee is a family run specialty coffee farm, roastery, and coffee shop based in the mountains of Chiang Rai province, led by Oli and Goh Chaosuwanwilai. Sirinya is born out of a commitment to the communities of Doi Chang, as well as stewardship of the land and constantly striving for excellence in all aspects of coffee. Starting right from the beginning with the quality of the soil. **This Anaerobic Natural is a proper fruity number!**

<b>Farm</b>	Cud Lie Mnong Coop	<b>Elevation</b>	800 masl
<b>Variety</b>	Robusta	<b>Process</b>	Natural
<b>Tasting Notes</b>	Toffee and Mollases		

Coffee is deeply ingrained in Vietnamese life with the iconic drip drip drip of the Phin Filter. The experience of road side cafés with little plastic stools provide the back drop of growing coffee culture throughout the country.

The Central Highlands are the main area of coffee production in Vietnam and Cud Lie Mnong Coop is located in Cu Mgar district of Daklak province in the central highlands of Vietnam. The coop received Fairtrade Certification in 2009 and currently has 84 members. This coffee from a Phin Filter is an absolute dream.

The Phin Filter is uniquely Vietnamese. The Phin is a no-paper, no-waste, traditional and therapeutic method of brewing filter coffee that with each drip, drip, drip fully immerses you into Vietnamese Coffee Culture.

**Traditional black Vietnamese phin filter coffee (vgn) .....£4.5**  
(Also available iced)
