THE FIRE THAT FUELS EXTRAORDINARY DINING

From the creators of Temper Restaurants comes an exciting new venture. All our cattle is sourced from Charles Ashbridge, a third-generation farmer in North Yorkshire. Each cut is carefully aged and butchered in-house with a strict minimum-wastage approach. The finest steaks from these animals are served at Temper Restaurants—ranked among the world's best steakhouses—while the same premium beef is used in our burgers. The result? A seriously delicious burger, crafted from the very best meat we can get our hands on.

OUR BURGERS

Our burgers are naturally juicy:
made of 70% lean beef and 30% fat
