Decaf

This is a delicious malty blend of teas from Sri Lanka and Rwanda. Whether you're avoiding caffeine completely, cutting down, or just looking for a drink to be enjoyed at any time of day (or night!).
The first part of this blend comes from the mid-country tea gardens of Kandi, some of the oldest in Sri Lanka and 400-600m above sea level.

Teas grown in this region are renowned for having the body of low-grown teas and the delicious complexity of high-grown teas and are processed by hand using the orthodox method.
This delicate China Jat tea from Sri Lanka, handpicked from seedlings; is blended with the rich, malty flavours of the Rwandan tea for body.

Citrus Rooibos

In South Africa, Rooibos is known as Red Bush. It's naturally caffeine-free and is used in herbal medicine for its healing properties. The Rooibos included in our organic herbal infusion tea, Citrus Rooibos, grows at 650m above sea level on the Bergendal Estate; it is one of the few plants to thrive in the stony barren land of the Western Cape in South Africa.

Leaves are picked and cut before undergoing a natural fermentation. Finally, they are spread out and dried in the African sun to give the tea it's famous ruby-red colour. We blended these organic Rooibos with lemongrass, marigold bloom petals and citrus oils to create a rich, sweet-tasting, citrus rooibos delicious for any time of day or night.

Tea

£5

Extract Tea is ethically sourced from the world's finest tea gardens. Plucked and processed by hand, then skilfully blended and packed as loose leaf or biodegradable pyramid bags. Even better, cup of Extract Tea supports our GroundsUp charity collective, helping community projects here in the UK.

Mint

In Greek mythology, Minthe was a nymph, turned into a plant by Persephone, Queen of the Underworld. Mint has been used in medicine for more than 2000 years and is said to aid digestion and anxiety.

The heat of peppermint is beautifully balanced with spearmint sweetness and the sparkling citrus notes of lemon balm. It's naturally caffeine-free, a refreshing and calming cup for day or night.

Green

Jade Tips Green Tea is grown in yellow-black sandy loam soils by smallholders in the growing tea district of Xinyang. Young, tender leaves and buds are plucked in early Spring from carefully selected plants, then spread on bamboo trays and left to wither in direct sunlight.

Leaves are pan-fired in large woks to prevent oxidation before being hand-rolled and dried, all in under 24 hours. The resulting tea has a clean floral flavour with a long-lasting sweet finish.
